SUMMARY

B.Tech IT graduate with hands-on experience in AWS Cloud Computing, Full Stack Development, SQL Database Management, and Data Analytics. Proficient in MySQL, PostgreSQL, and SQL tools including MySQL Workbench and pgAdmin. Experienced in building cloud-hosted web applications, CI/CD pipelines, intelligent systems and OpenCV. Eager to contribute as a Cloud Engineer, SQL Developer, or Data Analyst.

EXPERIENCE

Cloud Computing Intern

May 2025 – Nov 2026

HTGE Technologies Pvt Ltd · Puducherry

Worked with AWS services:EC2, S3, Lambda, IAM, RDS, VPC; hosted web apps on Linux servers with RDS backend.

Implemented CI/CD pipelines using AWS Code Pipeline to automate build, test, and deployment workflows

Full Stack Development Intern

Sept 2025 – Nov 2026

HTGE Technologies Pvt Ltd · Puducherry

Built frontend interfaces using HTML and CSS; used MySQL to design backend databases and write optimized queries.

Data Science with AI & ML

Jul 2026 – Present

Zia Educational Technology · Chennai

Gained hands-on experience in Data Science, AI and Machine Learning through practical training and project-based learning.

Worked with Python, SQL, Excel, Power BI and Tableau for data analysis, visualization and reporting.

Practiced data cleaning, EDA, preprocessing, visualization and ML model development.

Built practical projects to apply data science and AI/ML concepts to real-world datasets. Developed skills in data-driven problem solving and business insight generation.

EDUCATION

BTech Information Technology

Nov 2022 – May 2026

SKP Engineering College · Tiruvannamalai

CGPA: 8.4

SKILLS

Python · SQL · Docker · AWS · Git · Figma · Machine Learning · Excel · Google Sheets · Jupyter · Google Colab · NumPy ·

Pandas · Matplotlib · MySQL · MongoDB · Tableau · Power BI · Scikit-learn · TensorFlow · Keras · OpenCV · PostgreSQL · Amazon RDS · VS Code · Html · CSS · Ec2 · S3 · IAM · RDS · VPC · Canva, NLP, Deep Learning, Statistical Analysis

Team Leadership · Communication · Time Management · Adaptability · Critical Thinking · Collaboration · Problem Solving · Quick Learning

PROJECTS

Dynamic Web Application Hosting Using AWS Cloud

Tools: AWS

Developed and hosted a dynamic web application using AWS EC2 and Amazon RDS (MySQL) to support efficient data management and backend operations. The solution can help companies streamline business processes, improve data accessibility, and reduce manual work. It also provides a scalable and reliable cloud-based platform that can support future business growth and application expansion.

Automated CI/CD Pipeline Using AWS Code Pipeline

Tools: AWS

Implemented an automated CI/CD pipeline using AWS Code Pipeline to streamline the application build, testing, and deployment process. The solution helps companies reduce manual deployment efforts, minimize errors, and deliver updates faster. It improves release consistency and supports efficient, reliable, and scalable software delivery.

Fraud Prevention and Verification in Driving Licence using Intelligent Technologies

Tools: Python, HTML, CSS, PostgreSQL, OpenCV, and OCR

Built with Python, HTML, CSS, PostgreSQL, OpenCV, and OCR; designed DB schema and SQL queries for fraud detection and licence validation.

Power BI Data Analytics Dashboard

Tools: Power BI, Excel, Data Analytics

Developed an interactive dashboard to analyze sales data, KPIs, trends, and business performance. Created visual reports and interactive filters to generate meaningful business insights.

Global Superstore Analytics Dashboard

Tools: Tableau, Excel, Data Visualization

Created an interactive Tableau dashboard to analyze global sales and profit data. Developed visualizations for categories, countries, trends, KPIs, and business performance.

Interactive Job Salary Dashboard

Tools: Excel, Pivot Tables, Pivot Charts, Slicers

Built an interactive Excel dashboard to analyze job salary and industry data. Used Pivot Tables, Pivot Charts, and Slicers for dynamic data analysis and visualization.

Coffee House – Responsive Website

Tools: HTML, CSS, JavaScript

Designed and developed a responsive coffee house website with a modern user interface. Implemented menu, gallery, testimonials, contact, and interactive navigation sections.

ElevatePro – Personal Branding Platform

Tools: HTML, CSS, JavaScript

Developed a responsive web platform for LinkedIn personal branding and professional growth. Implemented service sections, testimonials, lead-generation forms, and interactive UI components.

Saree E-commerce Website — Ongoing

Tools: HTML, CSS, JavaScript, Full Stack Development

Developing an e-commerce website with product categories, shopping cart, and product management features.

Implementing quantity management, order summary, checkout functionality, and responsive UI.
